

1 Physical sciences and engineering

Title of bibliography record

Authors Author 1 (first and last name), Author 2

Authors' emails Author1@email.com, author1@email.com

Abstract For each ATHENA partner institution, their Research Board members, in cooperation with vice-rectors, should contribute a list of outstanding publications of their researchers that have been published in the last five years. The list should be based on covering the most notable research activities and following the criteria of excellence in research quality. Though the partner institutions' size varies, the editors of the ARB vol. 2 expect up to 25 contributions of bibliographical records by each of the partners to this chapter. Each bibliographical record should include the authors' name, affiliation, abstract, keywords and the DOI of the publication (see Template ARB 2 Ch2 for details). The contributions should be tagged in one of four research field groups: (1) Physical sciences and engineering, (2) Social sciences and humanities, (3) Life sciences or (4) Multidisciplinary.

Contributors are invited to contact the editors for further details on the criteria for selecting the bibliographical items (ATHENA-research-book@um.si)

Keywords ARB vol.2, annotated bibliography, research excellence, ATHENA university
